PRESENTATION (PowerPoint)

BASIC FEATURES

Background style: See SLIDE MASTER descriptions earlier.

Animation effects: Many of the text and graphical elements were animated, so that they would add interest to the presentation. Many were timed to appear automatically 0, 1 or 2 seconds after the previous element. This has already been described above.

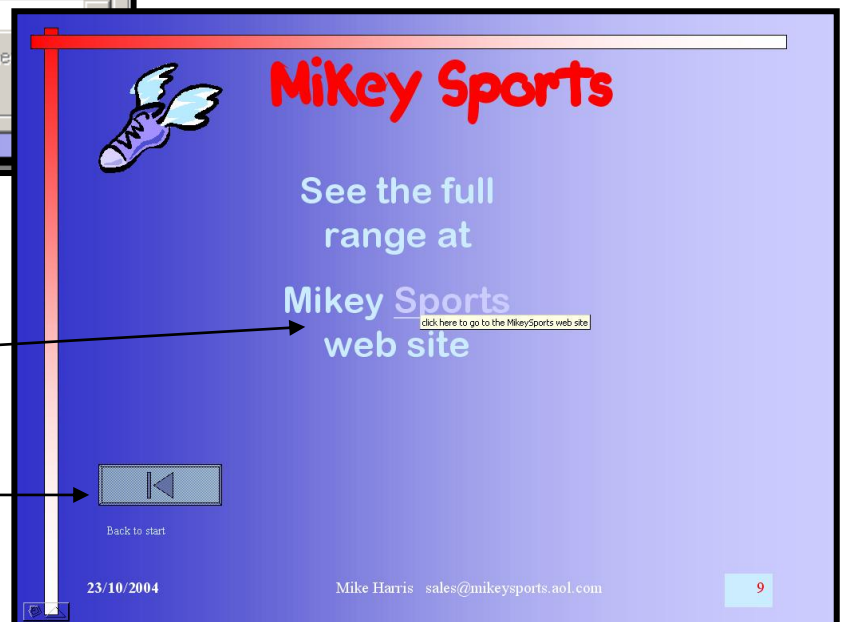

Transition effects: These were set to 'vertical blinds' automatically after each slide with 0 seconds delay. This was set as the default.

Hypertext has been described above

Hotspots have been described above

Bookmarks have been described above.
